

January 5 - Christmas Tree Pickup and Recycle Program

WCA Waste Management will provide curbside pickup of your Christmas trees (only real trees, please) on **January 5** and deliver the trees to a site drop-off. Those trees picked up will be recycled as part of the "Save Our Beach" event in Surfside.

Collection Guidelines

- Trees must be placed at the curb (same deed restriction guidelines as applied to trash cans) on **January 5**, no later than 7 a.m.
- Trees must be free of all ornaments, lights and decorations.
- Tree stands must be removed from the tree.
- Trees which have been flocked or wrapped in plastic or any type of inorganic material will **not** be collected for recycling.

The Glennloch Farms Homeowners' Association Board of Directors and AMI would like to wish everyone a safe and healthy holiday season. Blessings to all!
